or either of these positions? Yet if a citizen of the United States is not necessarily an elector, it might be that a woman could be President. I appeal, therefore, to the universal judgment of the American people to sustain me when I declare that the framers of the Constitution never intended that others than those who were electors should hold these high offices, and so declared when they required citizenship of the United States as a qualification.

This view is strengthened by a consideration of the other qualifications required by the Constitution. In addition to citizenship and a specified age, it provides that no one can be a Representative or a Senator who is not an inhabitant of the State in which he shall be chosen. And Article III of the amendment provides that the electors shall meet in their respective States and vote by ballots for President and Vice President, one of whom at least shall not be an inhabitant of the same State with themselves. Thus inhabitancy of a State at the time of election is required as a qualification as well as citizenship of the United States. The implication is clear that there are inhabitants of a State who are not citizens. The question then occurs, what is the distinction between the inhabitants of a State who are citizens and those who are not? Manifestly all are inhabitants of a State who have acquired a domicile within its limits. They are subject to the laws, owe allegiance, and the State in return is bound to protect them. Vattel, page 192, being part of the people of the United States they are subject to its laws and entitled to its protection. All these privileges the inhabitants who are U. S. citizens and those who are not enjoy equally. Elsewhere, then, the distinction between the two must be found. I submit that it exists in the different rights which rights they possess, for their civil rights being the same, certainly it can be found nowhere else. Those inhabitants of a State who are capable of participating in the administration of public affairs of the Federal Government are citizens of the United States, and those who cannot are not.

The power of naturalization, except for the purpose of perfecting the rights which their deceased husbands had not secured, or of obtaining property which their alienage prevented them from holding; and 2d, upon all persons born within the United States. This makes citizens of 1st, women; 2d, Indians; 3d, Negroes, and 4th, Chinamen. None of these have hitherto been capable of exercising the great rights of United States citizenship. It is unnecessary for me to refer to the long course of the decision of the judiciary and other departments of the Federal Government, in which these rights have been denied to the person named. It is a question of political opinion. A telegraphic dispatch from Topeka, Kansas, announces that a joint resolution has passed the Legislature of that State, in favor of disfranchising all Democrats, embracing even those who could show an honorable discharge from the United States army. If such an audacious attempt to enslave white men be successful in Kansas, how long will it be before it is attempted in Ohio? Indeed, it is attempted now. Last fall you elected by a decided majority your Representative to Congress; but in contempt for the will of the people, and against the advice of many of his political friends, Mr. Delano avows his determination to keep his seat in Congress despite the expressed wishes of the people.

That the friends of Mr. Delano resort to every species of fraud and bribery to secure his election, is notorious to the whole community; and it will be proven that in three townships votes for Morgan were taken from the ballot box, and votes for Delano put in their place. It will be proven that several hundred non-resident voters were imported into the district, from other districts and States, and that they voted for Mr. Delano. It will be proven that various frauds were committed by the friends of Mr. Delano, while we have a clear record. But the contest requires exertion, time, and money, and it behooves every Democrat to be up and doing.

Let there be prompt action, and let the voice of the majority be respected.

The question involved in the contest made by Mr. Delano, directly concerns every citizen of this District. We all believe in the right of the majority to govern under the Constitution and laws of our country; and we are satisfied that there is not one honest and intelligent Republican in Knox county who is not satisfied that General Morgan was honestly elected. Nay more, is it not known and admitted that whatever unfairness was practiced lies at the door of Mr. Delano? Had a majority of the votes been for Mr. Delano, there would have been no contest, and General Morgan could not have been induced to strive for a seat in Congress had a majority of his fellow citizens decided against him.

If the will of the majority can be set aside, and Mr. Delano can be placed in Congress after he was fairly beaten, then an election is a mere farce, and it will be well for the people to understand their true condition.

Had there been any chance for the nomination of Mr. Delano, as candidate for Governor, there would have been no contest for Congress; but as the suggestion of his name by his local organ was received with chilling coldness by his own party friends, he has determined to try and hold on to a seat in Congress against the express will of the people.

The question reduces itself simply to this: have the people of the 13th District the right to elect a Representative in Congress; or does that right belong to the citizens of Massachusetts and other States. If we have the right, then it should be manfully asserted; but if we are slaves, then like slaves we should submit.

**The Beast.**  
Butler, the spoon-theft is coming to grief. A large number of suits have been instituted against him by various persons, who, during the late war, were plundered by their money, plate, jewelry, pianos, &c., by orders of the "Beast." The firm of Smith, Brothers, bankers, of New Orleans, have just recovered \$50,000, which was taken from them by Butler, without authority of law, during his black and bloody reign in that city. A large number of suits are still pending against him, and the probabilities are that he will be compelled to return to his rightful owners, most of the property he has stolen. To make up for these losses, Butler has determined to sue every editor who has "slandered" (?) him. He has already brought suit against "Brick" Pomeroy, editor of the *La Crosse Democrat*, laying the damages at \$100,000! That is a good joke.

**United States Senators.**  
The following persons have been elected U. S. Senators for the States mentioned, within the last few days, viz: Roscoe Conkling, New York; Simon Cameron, Pennsylvania; Oliver P. Morton, Indiana; Lyman Trumbull, Illinois; T. O. Howe, Wisconsin; C. D. Drake, Missouri. It is believed that Senator Pomeroy will be re-elected in Kansas. In Maryland and Kentucky several ballots have taken place for Senator, without resulting in a choice.

### Senator Hurd's Speech.

The speech of our talented young Senator, Frank H. Hurd, a portion of which we present to the readers of the BANNER this week, will be read with interest by his constituents, and by the people of the country generally. It is a fact worthy of notice that although several of the Abolition Senators "took notes" while Mr. Hurd was speaking, none of them dared attempt a reply to his clear, logical and unanswerable arguments. The truth is, none of them were equal to the task.

The balance of the speech will be given next week.

### Democrats! Are You Prepared for Slavery?

It is time that every Democrat should arouse to his true condition. The negroes have been made free, and it is now proposed to make white men slaves on account of political opinion. A telegraphic dispatch from Topeka, Kansas, announces that a joint resolution has passed the Legislature of that State, in favor of disfranchising all Democrats, embracing even those who could show an honorable discharge from the United States army. If such an audacious attempt to enslave white men be successful in Kansas, how long will it be before it is attempted in Ohio? Indeed, it is attempted now. ### Thanks to the Supreme Court.

After the long and dark and dreary night of Abolitionism despotism that has overshadowed the land for the last five years, we at last, thank God, begin to see a streak of light behind the clouds. The Supreme Court of the United States, true to its ancient fame as a conservator of liberty and an expounder of Constitutional freedom, has placed itself as a granite rock in front of the people, to beat back the angry waves of fanaticism and abolitionism, that have threatened to submerge and obliterate every vestige of Democratic government in America. Thanks, a thousand thanks to the Supreme Court! The Jacobins may howl and gnash their teeth, but their impotent rage cannot drive that body from a discharge of its duty to the country.

The decision of the Supreme Court, a few weeks ago, in the Milligan case, established the fact that "Military Commissions," for the trial of citizens, not in the military or naval service, were unconstitutional, and that their proceedings were of no more validity than a "trial" by a mob, according to the Code of "Judge Lynch." And, as a consequence, every person engaged in such trials, are liable to punishment as trespassers upon the rights and liberties of the people.

And now, we have another glorious decision from the Supreme Court, wherein that august body has declared that the oath required by the Constitution of Missouri to ministers of the Gospel, before they are permitted to enter a pulpit to preach salvation to man, is unconstitutional; and that the test oath required of lawyers before they could engage in any legal business, was also unconstitutional.

We now begin to "breathe freer and deeper." And we have an abiding faith that the evil designs of the corrupt and wicked men composing the so-called Congress of the United States, will be set at naught, and that the liberties of the people will yet be preserved.

### The New Civilization.

Our country, under the regime of the "God and morality party," is making rapid strides in civilization. The negroes, under the tuition of the Abolition leaders, are committing outrages in all parts of the country that are truly shocking. We scarcely pick up a paper but we find in its columns accounts of horrible crimes committed by black brutes; and yet we see no condemnation of these things in the Abolition papers of the country. Indeed, the Abolition leaders are afraid to denounce these negro outrages, for fear they will offend their new political allies.

We could fill several columns of the BANNER with just such items as the following:

The following is a special telegram to the World:

Boston, January 14.—Robinson, the negro arrested for criminally assaulting a child of 14 years of age and a lady of 71, in Braut, last week, has been identified as the same person who attempted a gross crime on the person of a clergyman's wife (Dr. A. Watson's,) in Somerville, a few weeks ago.

The Louisville Democrat of the 16th contains the following:

We were last evening made acquainted with a most heinous outrage perpetrated by Anthony Sanborn, a negro, who was arrested by that efficient officer, Thomas Starnes. The facts, as related to us, are these: The negro man, who is well acquainted with the house of Mr. Peters, on Sixth street, between Chestnut and Broadway, as well as its inmates, went there early Monday evening and rang the front door bell. While Kate Ormlin came to answer the summons of the doormaid, the negro slipped around and looked the other servant, the only remaining person in the house, in the kitchen. He then went into the hall, assaulted Kate, and made a desperate attempt to outrage her person, but she screamed loudly for her assistance, and the fiend was arrested.

**Coming to their Senses.**  
Most of the so-called "religious papers" of this country have done an immense amount of mischief in stirring up sectional bitterness and strife, and bringing about the late awful civil war. Many of these papers are even now doing every thing in their power to keep alive the worst possible state of feeling between the North and the South, and join in the wild crusade of the crazy fanatics in Congress, to impeach and remove the President, and thus throw the country into another horrible war.

We are glad to know, however, that there is at least one religious paper that does not go with the Jacobins in their howl against the President. The Pittsburgh Christian Advocate, in a late issue says:

"We regret more than we can express the movement started in the House of Representatives to impeach President Johnson. It will unsettle once more the foundations of society, and create a wide-spread source of uneasiness. The nation needs rest. It has been feverish long enough. And firm, not extreme measures, are the great want of the hour. We trust the movement may yet be arrested by the sober and prudent statesman, admitted by his bitter foes to be a man who will not receive from him, but reflect honor on the gubernatorial chair."

The editor of the Portsmouth Times, who was in attendance on the Democratic State Convention, says of it, that it "was one of the finest in numbers, in ability, in earnestness and enthusiasm that ever assembled in Ohio," and that the ticket nominated, "from the recognized ability and excellence of the candidates, will command the support of the Democracy and all friends of the Constitution."

One of the healthiest signs of the times is the fact that the disunion Radical leaders cannot agree among themselves as to the best way to destroy the country, and are now denouncing each other in the most violent manner. In Congress, John A. Bingham denounces Ashley and his crazy impeachment scheme, in unmeasured terms; and Paine, (Rad.) of Wisconsin, pitches into poor old Thad. Stevens "like a thousand of bricks." It is an old adage, and a true one, that "when rogues fall out honest men will get their rights."

Sumner, the disunion Senator from Massachusetts, declared in the Senate, a few days ago, that President Johnson "had become an enemy to the country," because he removed Radicals from office and put National Union men in their places. Sumner was called to order for the slander, but the chair (Anthony) decided that such language was in order! The truth is, these Radical devils abuse and insult the President in the most outrageous manner, and it is considered all right. "Times aint now as they used to was."

An Exchange says the late General Cass' cradle was a second-hand sugar trough, and asks aspiring young men to think of it.

### Impeachment Means Revolution.

We have always told our readers, and we now most earnestly and emphatically repeat it, that impeachment of the President means revolution. If any man believes that Andrew Johnson can be driven from the Presidential chair quietly and peaceably, by an accidental Jacobin majority in Congress, without making any opposition, he is woefully mistaken. And we warn the crazy fanatics who are seeking to remove the President by violent and illegal means, that they had better reflect seriously upon what they are doing. The President will not and cannot be deposed, for an honest discharge of his duty, without involving the country in another terrible war. We are even now on the very verge of revolution, and it is well for the people to understand it, and "set their houses in order." The Cleveland Herald, one of the most earnest and influential Republican papers in the State, well understands the present condition of affairs. In a late issue it says:

"The leading Union men of the State, and the leading Union journalists of the country, are every day opening their eyes to the alarming dangers ahead, if Congress shall reject prudent counsel, and rashly enter upon a program so fraught with evil as that of Mr. Ashley. It cannot be disguised that there is danger of driving into revolution. Impeachment means revolution, and it will carry with it all the consequences of revolution. Let it not be supposed that the trial of our Chief Magistrate, up on an ex parte charge of high crimes and misdemeanors, will be received like the peaceful passage of an appropriation bill."

Let our Republican friends read that over again, and ponder well what it says. Remember this does not come from a "Copperhead" or a "rebel sympathizer," but from an editor who has always been classed among the "truly loyal." Again, says the Herald:

"It would be well, therefore, that Congress should bear in mind, that the enlightened public opinion of the country will not sustain them in a programme, that threatens to debase our finances; depreciate our Government securities; impair our credit; entail odium upon us as a people in the eyes of all nations; by bringing disgrace upon the President of our choice; poison the currents of social life; stir up the bitterest partisan strife; and, perhaps, give rise to scenes of violence in our midst. For such results, our people are not yet prepared, and he is an unsafe Representative who does not recoil at the prospect."

In conclusion the Herald says:

"We are satisfied that as a measure of policy, at least, the great majority of the American people are opposed to an attempted impeachment of our Chief Magistrate, and should the House of Representatives, in an evil hour be hurried into such a proceeding, it will be in violation of the wishes and sober convictions of their constituents."

**Spirit of the Democratic Press.**  
The Norwalk Experiment thinks the Democratic State Ticket "will meet with universal favor from Democrats."

The Democratic State Ticket "is all that any Democrat could desire," in the judgment of the Stark County Democrat.

The Holmes County Farmer says the Democratic State Ticket, "taken together, is a strong one; perhaps the strongest ever presented to the people of the State."

The Hillsboro Gazette says "to the Democracy of Ohio, that they have in Judge Thurman a candidate who is, in every respect, worthy of their confidence, support and esteem."

The Violon Record is so well satisfied with the Democratic State Ticket nominated on the 8th, that it "thinks no better men could have been selected as our standard bearers."

The Ohio Eagle claims that "the nominations made on the 8th inst., are the best, as a whole, that have been made for years in the State," and that "Judge Thurman has no superior in Ohio."

It is the testimony of the St. Clairsville Gazette, that the Democratic State Ticket, "as a whole, has rarely been equalled in the amount of talent, intelligence and character which it presents."

The Cadiz Sentinel says "the platform of the Democracy of Ohio adopted at the 8th of January Convention, is as grand as the Constitution, and is founded on principles essential to the preservation of a Republican Government."

The Marietta Times well says that the democratic party in Ohio can easily poll 225,000 votes, without going outside the ranks. An active canvass may increase this to 240,000. In such case, we will carry the State.

The Ohio State Register is enthusiastic over the doings of the State Convention, and gives it point by exclaiming: "Let us go to work from this day, and make a united effort to elect our glorious nominee, Allen G. Thurman, the next Governor of Ohio."

The Chillicothe Advertiser, in an eloquent notice of the Democratic State Convention, says: "Judge Thurman, the eminent jurist and profound statesman, admitted by his bitter foes to be a man who will not receive from him, but reflect honor on the gubernatorial chair."

The editor of the Portsmouth Times, who was in attendance on the Democratic State Convention, says of it, that it "was one of the finest in numbers, in ability, in earnestness and enthusiasm that ever assembled in Ohio," and that the ticket nominated, "from the recognized ability and excellence of the candidates, will command the support of the Democracy and all friends of the Constitution."

The ablest men in the present Congress doubt whether there are substantial grounds for the impeachment. Even Mr. Ashley, it is said, when put to the test of an examination, confessed that his charges are based upon hearsay evidence, and not upon personal knowledge. Cincinnati Commercial.

Andrew Johnson will serve out his constitutional term of office—of this we now entertain no doubt whatever. The Radical cowards who wish to remove him, when it comes to the "tag of war," will run as they did at Bull Run! Mark that!

The editor of the St. Clairsville Gazette reiterates that, in a speech which Congressman Bingham made in that town, a few days before the election, he uttered the emphatic declaration: "If I am induced by re-election, so help me God, I will neither give sleep to my eyes nor slumber to my eyelids until I have filed bills of impeachment against Andy Johnson." I give such balm as hath no strife  
With nature or the laws of life;  
With blood my hands I never stain,  
Nor poison men to ease their pain.

**He is a Physician indeed who Cures.**  
The Indian Herb Doctor, R. J. LYONS, cures the following complaints: the most obstinate stages of their existence, viz: Diseases of the Throat, Lungs, Heart, Liver, Stomach, Dropsy in the Chest, Rheumatism, Neuralgia, Fits or Falling Sickness, and all other Nervous Disorders. Also, all Diseases of the Blood, such as Scrofula, Byspielas, Cancer, Fever, Sores, Leprosy.

**All forms of Female Difficulties** attended to with the happiest results.  
It is hoped that no one will despair of a cure until they have given the Indian Herb Doctor's Medicines a fair and faithful trial. During the Doctor's travels in Europe, West Indies, East Indies, South America and the United States, he has been the instrument in God's hand to restore to health and vigor thousands who were given up and pronounced incurable by the most eminent school Physicians; many more thousands who were on the verge of the grave, are now living monuments to the Doctor's skill and successful treatment, and are daily exclaiming: "Blessed be the day when first we saw and partook of the Indian Herb Doctor's Medicine."

**Satisfactory references of cures will be gladly and cheerfully given whenever required.**  
The Doctor pledges his sacred word and honor that he will in no wise, directly or indirectly, induce or cause any invalid to take his medicines without the strongest probability of a cure.

**Mode of Examination.**  
Dr. R. J. Lyons examines the Eye; he, therefore, asks no questions, neither does he require invalids to explain Symptoms. Let one call and have their symptoms and the location of their diseases explained free of charge.

**Remember, consultation and advice free.** The poor shall be liberally considered. The Dr. has not issued a pamphlet containing a brief sketch of his life, study and travels, which can be had free of charge by all who desire one.
